

Digital Leaders Newsletter

Hi! I want to tell you about online safety to keep you guys safe:

- Do not click on any popups that come up when you do not know
- Don't talk to strangers.
- Don't go to scam links.
- Do not meet anyone you have never met in person.
- Never buy anything with real money without permission

By Yanis and Shivam

Internet

The internet can be found on all across devices on iPads, computers and phones etc. The internet can be a dangerous place sometimes because there's cyber bullying and inappropriate sites and comments. This is what we try to stop at Ravenscote to help with your safety and love for computing because if you see a bad comment or site or message tell your teacher then tell one of the online safety officers who are: Mrs. Spooner and Mrs. Burrows and finally Mrs. Nicholson. Stay safe. By Henry

ONLINE SAFETY FACTS!!

WE WOULD LIKE PEOPLE TO BE MORE AWARE ON HOW ONLINE CAN BE DANGEROUS.

It won't be dangerous if you follow these steps! If someone sends a mean message or is unkind to you online, block them, report and make sure to tell an adult. If you are upset by something tell a trusted adult and talk to them about how you feel. Never give out personal information, otherwise it could be dangerous. If someone asks you for personal information, tell an adult, report and block them. Be online aware and if anyone you know is in this situation, make sure to tell them these simple steps!

By Flossy

Online safety!

We would like people to be more aware on how online can be very different to offline just follow the expectations and always follow the one by always tell a trusted adult if you are in danger or someone that is a trusted adult and never give out personal information such as these apps that your parents are not aware of you using it is very important oh one last thing...

STAY SAFE!!!

Digital Leaders Newsletter

Last year, in digital leaders, we were doing lessons on a website to learn more about online safety so that this year, we can teach the new digital leaders (who will have filled in an application in year 5). This is so next year and so on, the digital leaders club will carry on.

We care about online safety in this school because of bullying or as the online safety version is **Anti-Bullying**.

ONLINE SAFETY TIPS:

1. Always use safe and secure usernames and passwords.
2. Don't fall for any tricks on online games.
3. Never let yourself get scammed or money taken away for no reason.
