

Family Advice - Communication - Education

Do you feel you could use a little extra support? Parenting is one of the most rewarding - and sometimes most challenging - things we do, and everyone benefits from new ideas from time to time. These sessions can be especially helpful if you are currently on a waiting list for a referral or are not sure where to turn for advice.

We are excited to share that we have partnered with **FACE (Family Advice, Communication, Education)** to offer a variety of **free online parenting courses**. These sessions cover a range of topics that support emotional wellbeing and can be accessed at a time that works for you. We will share a monthly timetable of available courses.

The live online talks provide up-to-date information, simple and effective strategies, and the chance to ask questions and get practical advice.

Recordings are also available for 48 hours after each session.
