24th September 2026

Dear Parents/carers,

As you will be aware, at Ravenscote, children are taught in a maths group that is suited to their current learning needs and ability. Our aim is to ensure that every child is working at an appropriate pace, receiving the right level of support and challenge and developing both their mathematical understanding and confidence. Objectives are either taught at a more rapid pace with greater focus on mastery and greater depth thinking or either at a slower pace with more adult support and resources.

Maths groups are reviewed and adjusted regularly. It is important to remember that these groups are not fixed. Children develop and progress at different rates and we regularly review their learning to ensure that the group they are working in continues to meet their needs. Children may therefore move between groups when appropriate. When moving the children between groups, we consider a range of information, including formal assessment results, classroom performance, progress, confidence and engagement in maths, as well as the professional judgement of the class and maths teachers.

We are very pleased to continue supporting your child in developing their mathematical knowledge, skills and confidence and look forward to seeing them make progress throughout the year.

The children will begin their maths groups next week.

Maths Grouping:

More support	Mrs Southall	Mrs Mitchell	Miss Charlton	Miss Wheeler	Miss Mulvihill	Deepening their knowledge
---------------------	--------------	--------------	---------------	--------------	----------------	----------------------------------

Kind regards,

The Year 3 Teachers
