Dear Parents and Carers

We are writing to share with you an updated joint statement from local school leaders regarding the proposed location of the new Frimley Park Hospital. The statement is attached to this communication.

As school leaders, we collectively support the urgent need for a new hospital and recognise the significant benefits that modern healthcare facilities will bring to our region. However, following further discussions and engagement, our concerns regarding the proposed Frimley Fuel Allotments site remain unchanged. These concerns continue to centre on child safety, safeguarding, traffic congestion, school access, transport infrastructure and the wider impact on our community.

The updated statement has been released jointly because we believe it is important that the voices of schools, families and local communities continue to be heard. Together, the schools supporting this statement represent thousands of children whose daily journeys and educational experiences could be significantly affected by a development of this scale.

What has been particularly encouraging throughout this process is the strength and **unity of our local community.** While we come from different schools and organisations, we are united in our commitment to protecting the interests of children and families. We believe that by working together respectfully and constructively, we can ensure that decision-makers fully consider the long-term impact of this proposal on our community. The statement reflects that shared position and collective voice.

Our opposition is not to a new hospital. Rather, it is to the proposed location until there is clear evidence that the concerns raised by schools, families and residents have been adequately addressed and that all viable alternatives have been fully and transparently considered.

We encourage all parents and carers to read the attached statement and remain engaged in the consultation process. This is a decision that could shape our community for generations, and it is important that the needs of children, families and local schools remain at the heart of that discussion.

Yours sincerely

Mrs Wells, Headteacher
Along with the Local School Leaders Supporting the Joint Statement on the Proposed Location of the New Frimley Park Hospital
